

GREENBACKER RENEWABLE ENERGY COMPANY ACQUIRES 2 SOLAR POWER GENERATION FACILITIES IN GAINESVILLE, FLORIDA

New York, NY - April 17, 2015 -- Greenbacker Renewable Energy Company LLC ("Greenbacker") announced today that through a wholly-owned subsidiary it acquired 2.05 Megawatts of operating solar power facilities located in Gainesville, Florida for a purchase price of \$4,150,000 ("Gainesville Solar") plus closing costs. The Gainesville Solar assets, which closed on April 13, 2015 and April 16, 2015 respectively, are comprised of two ground mounted solar systems located on commercial properties. 100% of the electricity produced by these two solar systems are sold under long term solar energy agreements to the Gainesville Regional Utility which is rated Aa2 by Moody's.

In total, the systems are expected to produce enough electricity to power approximately 336 homes for one year of typical use.

"We are extremely pleased to be purchasing these quality operating assets in Florida" stated Charles Wheeler, CEO of Greenbacker. "We anticipate that these assets will produce steady and predictable returns for our investors, and will add significant solar power generation capacity to Greenbacker's growing solar asset portfolio."

With the completion of this acquisition, Greenbacker now owns and operates approximately 13 Megawatts of operating solar power facilities throughout the United States and Canada.

ABOUT GREENBACKER

Greenbacker Renewable Energy Company is a publicly registered, non-traded Limited Liability Company that expects to acquire a diversified portfolio of income-producing renewable energy power plants, energy efficiency projects and other sustainable investments.

This is neither an offer to sell nor a solicitation of an offer to buy the securities described herein. An offering is made only by a prospectus to individuals who meet minimum suitability requirements. This sales literature must be read in conjunction with a prospectus in order to understand fully all the implications and risks of the offering of securities to which it relates. A copy of the prospectus must be made available to you in connection with the offering described herein. Neither the Attorney General of the state of New York, nor any other state regulators, have passed on or endorsed the merits of this offering. Any representation to the contrary is unlawful.

RISK FACTORS

There is no guarantee that Greenbacker Renewable Energy Company's ("Greenbacker's") investment strategy will be successful. Investment in a non-listed LLC like Greenbacker involves significant risks including but not limited to: no secondary market; limitation on liquidity, transfer and redemption of units; distributions made may not come from income, are not guaranteed and are subject to board discretion; investors may lose their entire investment; Greenbacker is dependent upon its advisor to select investments and conduct operations; and Greenbacker's advisor will face conflicts of interest. Greenbacker is not suitable for all investors. This investment relies, in part, on federal and state incentives currently in place to support the renewable energy industry. These incentives may be discontinued, reduced, or otherwise adversely modified in the future which may ultimately adversely affect investors' returns.

Greenbacker carries significant fees and charges that will have an impact on investment returns. Information provided by Greenbacker Capital Management, LLC. This is a speculative security and, as such, involves a high degree of risk. Investments are not bank guaranteed, not FDIC insured and may lose value or total value. **Securities offered through SC Distributors, LLC, dealer manager and member FINRA and SIPC.**
