

## **Greenbacker Renewable Energy Company LLC Acquires a 25 Megawatt Operating Wind Generation Facility in Montana**

New York, NY - Greenbacker Renewable Energy Company LLC ("Greenbacker") announced today that through a wholly-owned subsidiary it acquired a 25MW operating wind generation facility located in Montana, the Greenfield Wind Farm (the "Project"). The Project is being sold by Greenfield Wind, LLC, which is majority owned and managed by Foundation Windpower, LLC; an experienced wind developer based in San Francisco, CA. The total consideration for the Project is approximately \$34,500,000. In conjunction with this acquisition, the \$26 million Turbine Supply loan provided to Greenfield Wind LLC in June 2016 was repaid in full. The Project totals 25,000 kW comprising 13 GE 2.3-107 MW wind turbines. The Project is located in Teton County, MT and sells power directly to the local public utility, NorthWestern Energy, an investment grade utility company. The Project has a 25-year fixed-rate PPA, which includes the sale of 100% of the environmental credits, with no escalation for the contract period.

In total, the Project is expected to produce enough electricity to power approximately 5,525 homes for one year of typical use.

"We are extremely pleased to be purchasing our second wind asset from Foundation Windpower," stated Charles Wheeler, CEO of Greenbacker. "As we continue to grow our portfolio of alternative energy assets, wind assets such as this Project provide a diversified revenue stream to our more summer weighted solar generation income, helping to smooth our cash flows and providing more predictable returns for our investors."

### **About Greenbacker Renewable Energy Company LLC**

Greenbacker Renewable Energy Company LLC is a publicly registered, non-traded Limited Liability Company that expects to acquire a diversified portfolio of income-producing renewable energy power plants, energy efficiency projects and other sustainable investments.

### **RISK FACTORS**

**There is no guarantee that Greenbacker Renewable Energy Company's ("Greenbacker's") investment strategy will be successful. Investment in a non-listed LLC like Greenbacker involves significant risks including but not limited to: no secondary market; limitation on liquidity, transfer and redemption of units; distributions made may not come from income, are not guaranteed and are subject to board discretion; investors may lose their entire investment; Greenbacker is dependent upon its advisor to select investments and conduct operations; and Greenbacker's advisor will face conflicts of interest. Greenbacker is not suitable for all investors. This investment relies, in part, on federal and state incentives currently in place to support the renewable energy industry. These incentives may be discontinued, reduced, or otherwise adversely modified in the future which may ultimately adversely affect investors' returns.**

Greenbacker carries significant fees and charges that will have an impact on investment returns. Information provided by Greenbacker Capital Management, LLC. This is a speculative security and, as such, involves a high degree of risk. Investments are not bank guaranteed, not FDIC insured and may lose value or total value. **Securities offered through SC Distributors, LLC, an affiliated dealer manager and member of FINRA and SIPC.**
