

## **GREENBACKER RENEWABLE ENERGY COMPANY ANNOUNCES DEAL TO ACQUIRE 13 SOLAR POWER GENERATION FACILITIES FROM MP2 CAPITAL AND BLU LEAF VENTURES**

NEW YORK -- Feb. 4, 2015 -- Greenbacker Renewable Energy Company ("Greenbacker") announced today that through a wholly-owned subsidiary it acquired 9.789 Megawatts of operating solar power facilities located on 13 sites in Colorado, Connecticut, Florida, Hawaii, Indiana and North Carolina. The facilities were developed, owned and operated by MP2 Capital LLC and Blu Leaf Ventures LLC; two leading national solar developers. The "East to West Solar Portfolio" ("Portfolio") consists of ground and roof mounted solar systems located on municipal and commercial properties. Electricity and environmental attributes produced by the portfolio are sold under long term agreements to off takers including Duke Energy Progress, Xcel Energy, the City and County of Denver at Denver International Airport, the Orlando Utilities Commission, Kauai Island Utility Cooperative, and NIPSCO among others.

Approximately 90% of contracted revenues come from investment grade rated Utilities and Municipalities. In total, the systems are expected to produce enough electricity to power approximately 1,605 homes for one year of typical use.

"We are extremely pleased to be purchasing these assets from MP2 Capital and Blu Leaf Ventures," stated Charles Wheeler, CEO of Greenbacker. "In addition to acquiring a diversified portfolio of blue-chip renewable energy assets, we have created a great relationship with two developers. We anticipate that these assets will continue to help us develop steady and predictable returns for our investors."

### **ABOUT GREENBACKER**

Greenbacker Renewable Energy Company is a publicly registered, non-traded Limited Liability Company that expects to acquire a diversified portfolio of income-producing renewable energy power plants, energy efficiency projects and other sustainable investments.

This is neither an offer to sell nor a solicitation of an offer to buy the securities described herein. An offering is made only by a prospectus to individuals who meet minimum suitability requirements. This sales literature must be read in conjunction with a prospectus in order to understand fully all the implications and risks of the offering of securities to which it relates. A copy of the prospectus must be made available to you in connection with the offering described herein. Neither the Attorney General of the state of New York, nor any other state regulators, have passed on or endorsed the merits of this offering. Any representation to the contrary is unlawful. ### **RISK FACTORS**

**There is no guarantee that Greenbacker Renewable Energy Company's ("Greenbacker's") investment strategy will be successful. Investment in a non-listed LLC like Greenbacker involves significant risks including but not limited to: no secondary market; limitation on liquidity, transfer and redemption of units; distributions made may not come from income, are not guaranteed and are subject to board discretion; investors may lose their entire investment; Greenbacker is dependent upon its advisor to select investments and conduct operations; and Greenbacker's advisor will face conflicts of interest. Greenbacker is not suitable for all investors. This investment relies, in part, on federal and state incentives currently in place to support the renewable energy industry. These incentives may be discontinued, reduced, or otherwise adversely modified in the future which may ultimately adversely affect investors' returns.**

**Greenbacker carries significant fees and charges that will have an impact on investment returns. Information provided by Greenbacker Capital Management, LLC. This is a speculative security and, as such, involves a high degree of risk. Investments are not bank guaranteed, not FDIC insured and may lose value or total value. Securities offered through SC Distributors, LLC, dealer manager and member FINRA and SIPC.**
