

## Sierra Income Corporation Decreases Public Offering Price

NEW YORK, NY (December 17, 2015) – A committee of the board of directors (the “Board”) of Sierra Income Corporation (“SIC”) has approved a decrease in its public offering price from \$9.70 per share to \$9.25 per share.

The decrease in SIC’s public offering price is effective as of SIC’s December 18, 2015 weekly closing and first applied to subscriptions received from December 11, 2015 through December 17, 2015. The change in offering price reflects the updated NAV per share.

If SIC continues to experience underlying portfolio fluctuations, the Board may further increase or decrease the per share offering price of its shares of common stock for its future weekly closings, pursuant to SIC’s pricing policy included in its prospectus which requires a price update if the NAV fluctuates more than 2.5% from its previously reported NAV per share. SIC has not yet determined that a further adjustment to the newly-established offering price of \$9.25 per share will be necessary. In the event SIC determines to adjust its public offering price, a separate announcement will be issued.
